

TES-L5408MGTA

8 10/100TX + 4 1G/2.5G Copper EN50155 OS3 Managed Ethernet

Switch w/ Enhanced G.8032 Ring, PXE; WVI input

- Total 8 10/100TX + 4 1G/2.5G Copper ports
- Advanced protection schemes to include the protection against degraded situations, malicious behaviors
- Enhanced G.8032 ring protection < 20ms for single ring.
- Supports enhanced mode and basic mode; Enhanced G.8032 ring covers multicast packets; MSTP 8 MSTI /RSTP; support MRP ring
- Support PXE to verify switch firmware with the latest or certain version on server
- Miss-wiring avoidance & node failure protection
- User friendly UI, including auto topology drawing; Complete CLI
- Support LACP link aggregation, IGMP v3/router port, MLD snooping, DHCP server & DHCP Option82; Port based DHCP distribution, Mac based DHCP server, SSH v2/SSL, HTTPS, INGRESS ACL L2/L3, TACACS+, QinQ, QoS by VLAN
- Protocol based VLAN; IPv4 Subnet based VLAN
- Enhanced Environmental Monitoring for temp., actual input voltage, current & total power load
- Optional Smart bypass on 1G/2.5G ports in case of power failure, CPU hang (Up to two pairs)
- IP54 Aluminum housing for best heat dissipation and preventing moist ingress
- USB port to upload & download the configuration file
- Optional L3Lite or IEC 61375-2-5 TBN features to be upgradable
- Inrush current protection
- ITxPT compliant w/ ignition function **
- Dual power input 16.8V~137.5V with galvanic isolation between input power and system
- Factory reset pin to restore to factory default setting
- Wide range operation temperature: -40~70C/-40~158F

Lantech TES-L5408MGTA is a high performance OS3 switch with 8 10/100TX + 4 1G/2.5G Copper ports Ethernet which provides advanced security function for network aggregation deployment. It delivers ITU G.8032 enhanced ring recovery less than 20ms in single ring while also supports enhanced mode with easy configuration. The comprehensive QoS, advanced security including INGRESS ACL L2/L3, TACACS+, SSH v2/SSL and Mac based DHCP server, DHCP Option 82, DHCP server, IGMPv1/v2/v3/router port are supported and are also required in large network. It also supports10K Jumbo

Miss-wiring avoidance, Node failure protection

The TES-L5408MGTA also embedded several features for strong and reliable network protection in an easy and intuitive way. When the pre-set ring configuration failed or looped by miss-wiring, Lantech TES-L5408MGTA being able to alert with the LED indicator and disable ring automatically. Node failure protection ensures the Ethernet switches in a ring to survive after power breakout is back. The status can be shown in NMS when each Ethernet switch is back. Loop protection is also

available to prevent the generation of broadcast storm when a dumb switch is inserted in a closed loop connection.

Support PXE to verify switch firmware with the latest or certain version

The switch can check its firmware version during booting time via PXE protocol. If switch finds any newer version, it will upload automatically.

DHCP option 82 & Port based, Mac based DHCP, Option66, IPv6 DHCP server

DHCP server can assign dedicated IP address by MAC or by port (Port based for single switch); it also can assign IP address by port for multiple switches with single DHCP option82 server.

DHCP Option66 server can offer IP address of TFTP server to DHCP client for VOIP application. Basic IPv6 DHCP service can be supported.

User friendly GUI, Auto topology drawing

The user-friendly UI, innovative auto topology drawing and

topology demo makes TES-L5408MGTA much easier to get hands-on. The complete CLI enables professional engineer to configure setting by command line.

Enhanced G.8032 ring, 8 MSTI MSTP; MRP ring

Lantech TES-L5408MGTA features enhanced G.8032 ring which can be self-healed in less than 20ms for single ring topology protection covering multicast packets. It also supports various ring topologies that covers enhanced ring and basic ring by easy setup than others. It supports MSTP that allows RSTP over VLAN for redundant links with 8 MSTI.

MRP (Media Redundancy Protocol) can be supported for industrial automation networks.

IGMPv3, GMRP, router port, MLD Snooping, static multicast forwarding and multicast Ring protection

The unique multicast protection under enhanced G.8032 ring can offer immediate self-recovery instead of waiting for IGMP table timeout. It also supports IGMPv3, GMRP, router port, MLD Snooping and static multicast forwarding binding by ports for video surveillance application.

Built-in IEC 61375-3-4 ECN (Ethernet Consist Network) to work with IEC61375-2-5 TBN

Lantech OS3 Ethernet switches comply with IEC 61375-3-4 (ECN) standard. The support of Ethernet Consist Network allows interconnection between end devices located in single consist of train and interoperability with IEC61375-2-5 (TBN).

Enhanced Storm control*

Storm control prevents traffic on a LAN from being disrupted by a broadcast, multicast, or unicast storm on one of the physical interfaces and the detection is more precise and reaction is more efficient

Optional L3Lite/L3*/ETBN to be upgradable

Lantech OS3 are optional upgradable to L3 Lite/ L3* or ETBN communication protocols for future expansion. The optional L3Lite includes editable routing table, VRRP, Router-on-a-stick, Inter- VLAN routing. Optional ETBN complies with IEC61375-2-5 ETBN for Train Backbone Network.

QinQ, QoS and GVRP supported

It supports the QinQ, QoS and GVRP for large VLAN segmentation.

Protocol based VLAN; Subnet based VLAN

The protocol-based VLAN processes traffic based on protocol. It filters IP traffic from nearby end-stations using a particular protocol such as IP, IPX, ARP or other Ethernet-types in a Hex value. Subnet based VLANs group traffics into logical VLANs based on the source IP address and IP subnet.

The above features can help to build VLAN in the network mixed with managed and un-managed switch as to define

packets to which VLAN group based on protocol or subnet.

Editable configuration file; USB port for upload/download configuration

The configuration file of Lantech TES-L5408MGTA can be exported and edited with word processor for the following Ethernet switches to configure with ease.

The USB port can upload/download the configuration from/to USB dongle.

Event log & message; 2 DI + 2 DO; Factory default pin

TES-L5408MGTA provides 2DI and 2DO. When disconnection of the specific port was detected; DO will activate the signal LED to alarm. DI can integrate the sensors for events and DO will trigger the outside alarm and switch will send alert information to IP network with email and traps.

The factory reset pin can restore the setting back to factory default.

Enhanced environmental monitoring for Ethernet switch inside information

The enhanced environmental monitoring can detect switch overall temperature, actual input voltage and current. It also can send the SNMP traps and email** when abnormal.

Optional Ignition function using rotary switches

With a 5-Pin rotary switch to trigger delay off into standby mode function. There will be three switch modes set as different time span to delay off system off time.

Optional Smart bypass protection on dual 1G/2.5G copper ports**

The smart bypass relay is set to bypass the switch to the next one when power is off in order to protect the network from crashing. Lantech bypass caters to remain in bypass mode until the switch is completely booting up when power is back to avoid another network lost. Optional smart bypass (Up to two pairs) can be activated when switch encounters power failure or CPU hang. (-BT/-BBT model)

Dual WV isolated input powers

The TES-L5408MGTA WVI model accept 16.8~137.5VDC dual input with galvanic protection.

EN50155, EN45545-2, EN61373 compliance; High ESD protection

TES-L5408MGTA passed serious tests under extensive Industrial EMI and Safety standards. With EN45545-2 Fire & Smoke, EN50155 verification, the TES-L5408MGTA is the best switch for railway on-board/track side, vehicle, and mining applications. For more usage flexibilities, TES-L5408MGTA supports wide operating temperature from -40°C to 70°C. (85°C operation for 10min.)

FEATURES & BENEFITS

- 8 10/100TX D-coded + 4 1G/2.5G Copper ports (Total 12 Ports Switch)
- Dual WVI input (16.8V~137.5VDC)
- Galvanic isolation from power input/Ethernet ports to system 1.5KV
- Back-plane (Switching Fabric): 21.6Gbps
- 16K MAC address table
- 10KB Jumbo frame
- User friendly UI, auto topology drawing, topology demo, complete CLI for professional setting
- Enhanced G.8032 Ring protection in 20ms for single ring

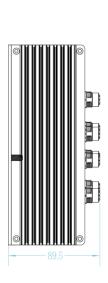

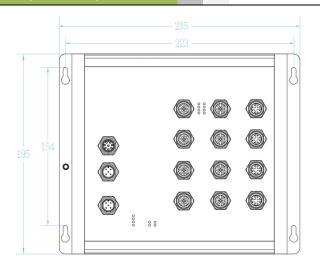

- Support various ring/chain topologies, including enhanced ring and basic ring,
- Enhanced G.8032 ring configuration with ease
- Cover multicast and data packets protection
- Support train IP group address by multicast
- Supports IEEE 802.1p Class of Service, per port provides 8 priority queues Port base, Tag Base and Type of Service Priority
- IEEE 802.1d STP, IEEE 802.1w RSTP,802.1s MSTP VLAN redundancy with 8 MSTI
- Subnet VLAN and protocol VLAN
- 4K 802.1Q VLAN, Port based VLAN, GVRP, QinQ, QoS
- Supports IEEE 802.1ab LLDP, Cisco CDP; LLDP info can be viewed via Web/ Console
- Support PXE to verify switch firmware with the latest or certain version
- DHCP server / client / DHCP Option 82 relay / DHCP
 Option 82 server; Port based DHCP server; DHCP
 Option 66; basic IPv6 DHCP server
- Mac based DHCP server to assign IP address that includes dumb Ethernet switches in DHCP network
- Bandwidth Control
 - Ingress packet filter and egress* rate limit
 - Broadcast/multicast packet filter control
- Miss-wiring avoidance
 - LED indicator
- Node failure protection
 - Ensure the switches in a ring to survive after power breakout is back
 - The status can be shown in NMS when each switch is back
- System Event Log, SMTP alert and SNMP Trap for alarm support
- Security
 - SSL/SSH v2/INGRESS ACL L2/L3
 - MAC address table: MAC address entries/Filter/static MAC-Port binding
 - Remote Admin: IP address security
 management to prevent unauthorized intruder
 - · TACACS+

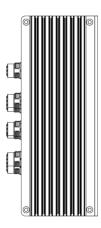

- Login Security: IEEE802.1X/RADIUS
 - HTTPS for secure access to the web interface
- Static multicast forwarding forward reversed IGMP flow with multicast packets binding with ports for IP surveillance application
- IGMP router port for Multicast protection
- IGMPv1,v2,v3 with Query mode for multi media
- MLD Snooping for IPv6 Multicast stream
- Dual image firmware support
- Factory reset button to restore setting to factory default
- Enhanced environmental monitoring for system actual input voltage, current, ambient temperature, and total power load
- Supports 2DI/2DO (Digital Input/Digital Output)
- Optional Bypass protection (Up to two pairs) (-BT/-BBT model)
 - Solid GigaT bypass
 - Bypass failed switch caused by power failure, watchdog hanged in a bus structure
 - Wait until switch is completely booting to swift back to normal mode
- Configuration backup and restoration
 - Supports editable configuration file for system quick installation
 - USB port for upload/download configuration file
- TFTP/HTTP firmware upgrade
- Wide operation temperature: -40C~70C/-40F~158F (85°C operation for 10min.)
- EN45545-2 Fire & Smoke, EN50155 and EN61373 shock/vibration compliance
- Built-in IEC 61375-3-4 ECN (Ethernet Consist Network) to work with IEC61375-2-5 TBN
- Diagnostic including Ping / ARP table / DDM information
- Enhanced Storm Control*
- Optional L3Lite/L3*/ETBN to be upgradable
- Inrush current protection
- ITxPT compliant w/ ignition function
- IP54 aluminum housing with wall mount design

IEEE 802.1Q Tag VLAN (256 entries)/ VLAN ID (Up to 4K, VLAN ID can be assigned from 1 to 4096) GVRP, QinQ, QoS Protocol based VLAN IPv4 Subnet based VLAN IPv4 S		
(Up to 4K, VLAN ID can be assigned from 1 to 4096) GVRP, QinQ, QoS Protocol based VLAN IPv4 Subnet based VLAN IPv4 Service determined by IPv4 Type of service, IPv4 Differentiated Services Code Points - DSCP Class of Service Support IEEE802.1p class of service, per port provides 8 priority queues Remote Admin Supports 10 IP addresses that have permission to access the switch management and to prevent unauthorized intruder Support 3 mirroring types: "RX, TX and Both packet" Network Security Support 10 IP addresses that have permission to access the switch management and to prevent unauthorized intruder. 802.1X access control for port based and MAC based authentication/static MAC-Port binding Ingress ACL L2/L3 SSL/SSH v2 for Management HTTPS for secure access to the web interface TACACS+ for Authentication MLD Snooping Support IPv6 Multicast stream	VLAN	
4096) GVRP, QinQ, QoS Protocol based VLAN IPv4 Subnet based VLAN IPv4 Subnet based VLAN Spanning Tree Supports IEEE802.1d Spanning Tree* and IEEE802.1w Rapid Spanning Tree 8 MSTI The quality of service determined by IPv4 Type of service, IPv4 Differentiated Services Code Points - DSCP Class of Service Support IEEE802.1p class of service, per port provides 8 priority queues Remote Admin Supports 10 IP addresses that have permission to access the switch management and to prevent unauthorized intruder Login Security Supports 3 mirroring types: "RX, TX and Both packet" Network Security Support 10 IP addresses that have permission to access the switch management and to prevent unauthorized intruder. 802.1X access control for port based and MAC based authentication/static MAC-Port binding Ingress ACL L2/L3 SSL/SSH v2 for Management HTTPS for secure access to the web interface TACACS+ for Authentication MLD Snooping Support IPv6 Multicast stream		
Protocol based VLAN IPv4 Subnet based VLAN Spanning Tree Supports IEEE802.1d Spanning Tree** and IEEE802.1w Rapid Spanning Tree 8 MSTI The quality of Service The quality of service determined by IPv4 Type of service, IPv4 Differentiated Services Code Points - DSCP Class of Service Support IEEE802.1p class of service, per port provides 8 priority queues Supports 10 IP addresses that have permission to access the switch management and to prevent unauthorized intruder Supports IEEE802.1X Authentication/RADIUS Port Mirror Support 3 mirroring types: "RX, TX and Both packet" Network Security Support 10 IP addresses that have permission to access the switch management and to prevent unauthorized intruder. 802.1X access control for port based and MAC based authentication/static MAC-Port binding Ingress ACL L2/L3 SSL/SSH v2 for Management HTTPS for secure access to the web interface TACACS+ for Authentication MLD Snooping Support IPv6 Multicast stream		
IPv4 Subnet based VLAN Spanning Tree Supports IEEE802.1d Spanning Tree** and IEEE802.1s Multiple Spanning Tree 8 MSTI The quality of Service The quality of service determined by IPv4 Type of service, IPv4 Differentiated Services Code Points - DSCP Class of Service Support IEEE802.1p class of service, per port provides 8 priority queues Remote Admin Supports 10 IP addresses that have permission to access the switch management and to prevent unauthorized intruder Login Security Support 3 mirroring types: "RX, TX and Both packet" Network Security Support 10 IP addresses that have permission to access the switch management and to prevent unauthorized intruder Support 10 IP addresses that have permission to access the switch management and to prevent unauthorized intruder. 802.1X access control for port based and MAC based authentication/static MAC-Port binding Ingress ACL L2/L3 SSL/SSH v2 for Management HTTPS for secure access to the web interface TACACS+ for Authentication MLD Snooping Support IPv6 Multicast stream		
Spanning Tree Supports IEEE802.1d Spanning Tree** and IEEE802.1w Rapid Spanning Tree, IEEE802.1s Multiple Spanning Tree 8 MSTI The quality of service determined by IPv4 Type of service, IPv4 Differentiated Services Code Points - DSCP Class of Service Support IEEE802.1p class of service, per port provides 8 priority queues Remote Admin Supports 10 IP addresses that have permission to access the switch management and to prevent unauthorized intruder Login Security Supports IEEE802.1X Authentication/RADIUS Port Mirror Support 3 mirroring types: "RX, TX and Both packet" Network Security Support 10 IP addresses that have permission to access the switch management and to prevent unauthorized intruder. 802.1X access control for port based and MAC based authentication/static MAC-Port binding Ingress ACL L2/L3 SSL/SSH v2 for Management HTTPS for secure access to the web interface TACACS+ for Authentication MLD Snooping Support IPv6 Multicast stream		
IEEE802.1w Rapid Spanning Tree, IEEE802.1s Multiple Spanning Tree 8 MSTI Quality of Service The quality of service determined by IPv4 Type of service, IPv4 Differentiated Services Code Points - DSCP Class of Service Support IEEE802.1p class of service, per port provides 8 priority queues Remote Admin Supports 10 IP addresses that have permission to access the switch management and to prevent unauthorized intruder Login Security Supports IEEE802.1X Authentication/RADIUS Port Mirror Support 3 mirroring types: "RX, TX and Both packet" Network Security Support 10 IP addresses that have permission to access the switch management and to prevent unauthorized intruder. 802.1X access control for port based and MAC based authentication/static MAC-Port binding Ingress ACL L2/L3 SSL/SSH v2 for Management HTTPS for secure access to the web interface TACACS+ for Authentication MLD Snooping Support IPv6 Multicast stream	Spanning Tree	
Quality of Service The quality of service determined by IPv4 Type of service, IPv4 Differentiated Services Code Points - DSCP Class of Service Support IEEE802.1p class of service, per port provides 8 priority queues Remote Admin Supports 10 IP addresses that have permission to access the switch management and to prevent unauthorized intruder Supports IEEE802.1X Authentication/RADIUS Port Mirror Support 3 mirroring types: "RX, TX and Both packet" Network Security Support 10 IP addresses that have permission to access the switch management and to prevent unauthorized intruder. 802.1X access control for port based and MAC based authentication/static MAC-Port binding Ingress ACL L2/L3 SSL/SSH v2 for Management HTTPS for secure access to the web interface TACACS+ for Authentication MLD Snooping Support IPv6 Multicast stream		IEEE802.1w Rapid Spanning Tree,
of service, IPv4 Differentiated Services Code Points - DSCP Class of Service Support IEEE802.1p class of service, per port provides 8 priority queues Remote Admin Supports 10 IP addresses that have permission to access the switch management and to prevent unauthorized intruder Login Security Supports IEEE802.1X Authentication/RADIUS Port Mirror Support 3 mirroring types: "RX, TX and Both packet" Network Security Support 10 IP addresses that have permission to access the switch management and to prevent unauthorized intruder. 802.1X access control for port based and MAC based authentication/static MAC-Port binding Ingress ACL L2/L3 SSL/SSH v2 for Management HTTPS for secure access to the web interface TACACS+ for Authentication MLD Snooping Support IPv6 Multicast stream		
Points - DSCP Class of Service Support IEEE802.1p class of service, per port provides 8 priority queues Remote Admin Supports 10 IP addresses that have permission to access the switch management and to prevent unauthorized intruder Login Security Supports IEEE802.1X Authentication/RADIUS Port Mirror Support 3 mirroring types: "RX, TX and Both packet" Network Security Support 10 IP addresses that have permission to access the switch management and to prevent unauthorized intruder. 802.1X access control for port based and MAC based authentication/static MAC-Port binding Ingress ACL L2/L3 SSL/SSH v2 for Management HTTPS for secure access to the web interface TACACS+ for Authentication MLD Snooping Support IPv6 Multicast stream	Quality of Service	
Class of Service Support IEEE802.1p class of service, per port provides 8 priority queues Remote Admin Supports 10 IP addresses that have permission to access the switch management and to prevent unauthorized intruder Login Security Supports 18EE802.1X Authentication/RADIUS Port Mirror Support 3 mirroring types: "RX, TX and Both packet" Network Security Support 10 IP addresses that have permission to access the switch management and to prevent unauthorized intruder. 802.1X access control for port based and MAC based authentication/static MAC-Port binding Ingress ACL L2/L3 SSL/SSH v2 for Management HTTPS for secure access to the web interface TACACS+ for Authentication MLD Snooping Support IPv6 Multicast stream		· ·
Provides 8 priority queues Remote Admin Supports 10 IP addresses that have permission to access the switch management and to prevent unauthorized intruder Login Security Supports IEEE802.1X Authentication/RADIUS Port Mirror Support 3 mirroring types: "RX, TX and Both packet" Network Security Support 10 IP addresses that have permission to access the switch management and to prevent unauthorized intruder. 802.1X access control for port based and MAC based authentication/static MAC-Port binding Ingress ACL L2/L3 SSL/SSH v2 for Management HTTPS for secure access to the web interface TACACS+ for Authentication MLD Snooping Support IPv6 Multicast stream	Class of Service	
permission to access the switch management and to prevent unauthorized intruder Login Security Supports IEEE802.1X Authentication/RADIUS Port Mirror Support 3 mirroring types: "RX, TX and Both packet" Network Security Support 10 IP addresses that have permission to access the switch management and to prevent unauthorized intruder. 802.1X access control for port based and MAC based authentication/static MAC-Port binding Ingress ACL L2/L3 SSL/SSH v2 for Management HTTPS for secure access to the web interface TACACS+ for Authentication MLD Snooping Support IPv6 Multicast stream		. , ,
and to prevent unauthorized intruder Login Security Supports IEEE802.1X Authentication/RADIUS Port Mirror Support 3 mirroring types: "RX, TX and Both packet" Network Security Support 10 IP addresses that have permission to access the switch management and to prevent unauthorized intruder. 802.1X access control for port based and MAC based authentication/static MAC-Port binding Ingress ACL L2/L3 SSL/SSH v2 for Management HTTPS for secure access to the web interface TACACS+ for Authentication MLD Snooping Support IPv6 Multicast stream	Remote Admin	
Login Security Supports IEEE802.1X Authentication/RADIUS Support 3 mirroring types: "RX, TX and Both packet" Network Security Support 10 IP addresses that have permission to access the switch management and to prevent unauthorized intruder. 802.1X access control for port based and MAC based authentication/static MAC-Port binding Ingress ACL L2/L3 SSL/SSH v2 for Management HTTPS for secure access to the web interface TACACS+ for Authentication MLD Snooping Support IPv6 Multicast stream		
Port Mirror Support 3 mirroring types: "RX, TX and Both packet" Network Security Support 10 IP addresses that have permission to access the switch management and to prevent unauthorized intruder. 802.1X access control for port based and MAC based authentication/static MAC-Port binding Ingress ACL L2/L3 SSL/SSH v2 for Management HTTPS for secure access to the web interface TACACS+ for Authentication MLD Snooping Support IPv6 Multicast stream	Login Security	
Network Security Support 10 IP addresses that have permission to access the switch management and to prevent unauthorized intruder. 802.1X access control for port based and MAC based authentication/static MAC-Port binding Ingress ACL L2/L3 SSL/SSH v2 for Management HTTPS for secure access to the web interface TACACS+ for Authentication MLD Snooping Support IPv6 Multicast stream		• •
to access the switch management and to prevent unauthorized intruder. 802.1X access control for port based and MAC based authentication/static MAC-Port binding Ingress ACL L2/L3 SSL/SSH v2 for Management HTTPS for secure access to the web interface TACACS+ for Authentication MLD Snooping Support IPv6 Multicast stream		
prevent unauthorized intruder. 802.1X access control for port based and MAC based authentication/static MAC-Port binding Ingress ACL L2/L3 SSL/SSH v2 for Management HTTPS for secure access to the web interface TACACS+ for Authentication MLD Snooping Support IPv6 Multicast stream	Network Security	Support 10 IP addresses that have permission
802.1X access control for port based and MAC based authentication/static MAC-Port binding Ingress ACL L2/L3 SSL/SSH v2 for Management HTTPS for secure access to the web interface TACACS+ for Authentication MLD Snooping Support IPv6 Multicast stream		to access the switch management and to
based authentication/static MAC-Port binding Ingress ACL L2/L3 SSL/SSH v2 for Management HTTPS for secure access to the web interface TACACS+ for Authentication MLD Snooping Support IPv6 Multicast stream		prevent unauthorized intruder.
Ingress ACL L2/L3 SSL/SSH v2 for Management HTTPS for secure access to the web interface TACACS+ for Authentication MLD Snooping Support IPv6 Multicast stream		802.1X access control for port based and MAC
SSL/SSH v2 for Management HTTPS for secure access to the web interface TACACS+ for Authentication MLD Snooping Support IPv6 Multicast stream		based authentication/static MAC-Port binding
HTTPS for secure access to the web interface TACACS+ for Authentication MLD Snooping Support IPv6 Multicast stream		Ingress ACL L2/L3
TACACS+ for Authentication MLD Snooping Support IPv6 Multicast stream		SSL/SSH v2 for Management
MLD Snooping Support IPv6 Multicast stream		HTTPS for secure access to the web interface
		TACACS+ for Authentication
	IGMP	Support IGMP snooping v1, v2, v3; Supports
IGMP static route; 1024 multicast groups;		IGMP static route; 1024 multicast groups;

	IOMPt
Static multipoet	IGMP router port; IGMP query; GMRP
Static multicast	Static multicast forwarding forward reversed IGMP flow with multicast packets binding with
forwarding	· · · · · · · · · · · · · · · · · · ·
Bandwidth Control	ports for IP surveillance application Support ingress packet filter and egress*
	packet limit.
	The egress* rate control supports all of packet
	type. Ingress filter packet type combination rules are
	Broadcast/Multicast/Flooded Unicast packet,
	Broadcast/Multicast packet, Broadcast packet
	only and all types of packet. The packet filter rate can be set an accurate
	value through the pull-down menu for the
	ingress packet filter and the egress* packet
	limit.
Advanced protection	Protect against Storm Control, DHCP snooping, IP Source Guard, ARP Inspection,
schemes	BPDU Guard, Small frame arrival rate, Protocol
	storm protection
Flow Control	Supports Flow Control for Full-duplex and Back
System Log	Pressure for Half-duplex Supports System log record and remote
- Cystom Log	system log server
Protection	Miss-wiring avoidance
	Node failure protection
SNMP Trap	■ Loop protection Up to 5 trap stations; trap types including:
orum rrap	Device cold start
	Authorization failure
	 Port link up/link down
	DI/DO open/close
	Typology change (ITU ring)
	Power failure Environmental abnormal
PXE	PXE to verify switch firmware with the latest or
	certain version
DHCP	Provide DHCP Client/ DHCP Server/DHCP
	Option 82/Port based DHCP; DHCP Option 66; basic IPv6 DHCP server
Mac based DHCP	Assign IP address by Mac that can include
Server	dumb switch in DHCP network
DNS	Provide DNS client feature and can set Primary
	and Secondary DNS server
SNTP	Supports NTP/SNTP to synchronize system
Firmware Update	clock in Internet Supports TFTP firmware update, TFTP backup
	and restore; HTTP firmware upgrade
Enhanced Storm	prevents traffic on a LAN from being disrupted
Control*	by a broadcast, multicast, or unicast storm on
ECN	one of the physical interfaces Complies with IEC 61375-3-4 (ECN) standard.
ECN	The support of Ethernet Consist Network
	allows interconnection between end devices
	located in single consist of train and interoperability with IEC61375-2-5 (TBN).
Optional	Lantech OS3 are optional upgradable to L3
L3Lite/L3*/ETBN**	Lite/ L3* or ETBN communication protocols for
	future expansion. The optional L3Lite includes
	editable routing table, VRRP, Router-on-a- stick, Inter- VLAN routing. Optional ETBN
	complies with IEC61375-2-5 ETBN for Train
	Backbone Network.
Configuration	Detail SPEC upon request.
Configuration upload and	Supports editable configuration file for system quick installation; Support factory reset button
download	to restore all settings back to factory default;
Diagnostic	Support Ping, ARP table and DDM information
Dual Image	Support dual image firmware function
Firmware	P
	*Future release **Optional

**Optional

ORDERING INFORMATION

All model packages include M12 caps and wall mount bracket. All standard models are non-coating, optional coating models are available with -C model name. For optional bypass add -BT (one pair); -BBT (two pairs) to end of model names.

TES-L5408MGTA-54-WVI......P/N: 8361-5384

8 10/100TX + 4 1G/2.5G Copper M12 X-coded; EN50155 OS3 Managed Ethernet Switch; 16.8~137.5V input; -40°C to 70°C: IP54 housing

TES-L5408MGTA-54-WVI-IGN......P/N: 8361-5385

8 10/100TX + 4 1G/2.5G Copper M12 X-coded; EN50155 OS3 Managed Ethernet Switch; 16.8~137.5V input; -40°C to 70°C; IP54 housing w/ignition function

TES-L5408MGTA-54-WVI-BT......P/N: 8361-5386

8 10/100TX + 4 1G/2.5G Copper M12 X-coded; EN50155 OS3 Managed Ethernet Switch; 16.8~137.5V input; -40°C to 70°C; IP54 housing w/ galvanic isolation; one-pair copper bypass

TES-L5408MGTA-54-WVI-BBT......P/N: 8361-5387

8 10/100TX + 4 1G/2.5G Copper M12 X-coded; EN50155 OS3 Managed Ethernet Switch; 16.8~137.5V input; -40°C to 70°C; IP54 housing w/ galvanic isolation; two-pairs copper bypass

OPTIONAL ACCESSORIES

Software package

OS3 - L3L..... P/N: 9000-114

OS3 software platform with Layer 3 Lite functions (please check Lantech software data sheet for details)

OS3 - IEC61375-2-5 P/N: 9000-115

OS3 software platform with IEC-61375-2-5 ETBN (Ethernet Train Backbone Networks) function incl. L3L (please check Lantech software data sheet for details)

OS3 - L3*...... P/N: 9000-116

OS3 software platform with Layer 3 functions incl. IEC61375-2-5 and L3L (please check Lantech software data sheet for details)

M12 Connector & Cable

Connector

■ ECONM12-04A(F)-C-180 4 pin M12 (Female) A-coded 180 degree crimp type connector for power supply ECONM12-08A(M)-180 8 pin M12 (Male) A-coded 180 degree crimp type connector for reset/console/USB

■ FCONM12-05A(M)-C-180 5 pin M12 (Male) A-coded 180 degree crimp type connector for DI/DO

■ ECONM12-08X(M)-SPEEDCON 8 pin M12 (Male) X-coded 180 degree crimp type connector for data, Ethernet CAT6A (10G), shielded, SPEEDCON

ECONM12-04D(M)-C-180 4 pin M12 (Male) D-coded 180 degree crimp type connector for data

Cable

ECONM12-4P(F)1.5M CABLE 4 pin M12 (Female) A-coded 90 degree cable for power supply, 150cm ■ ECONM12-08M2-CONSOLE 8 pin M12 (Male) A-coded 180 degree to RS232 cable for console, 150cm ■ ECABM12X83MSTP 8 pin M12 (Male) X-coded 180 degree RJ45 STP cable for data, shielded, 300cm ECAB124030MJS 4 pin M12 (Male) D-coded 180 degree RJ45 STP cable for data, 300cm

Others

8pin M12 (Male) A-coded 180 degree M12 to USB 2.0 interface adapter, 8cm ■ USB adapter (8850-102)
